## **COPYRIGHT STATEMENT**

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials including foreign works under certain conditions. In addition, the United States extends protection to foreign works by means of various international conventions, bilateral agreements, and proclamations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

The Columbia University Libraries reserve the right to refuse to accept a copying order if, in its judgement, fulfillment of the order would involve violation of the copyright law.

## LETTER OF SUBMITTAL

DEPARTMENT OF COMMERCE,  
BUREAU OF FOREIGN AND DOMESTIC COMMERCE,  
Washington, March 1, 1926.

SIR: There is submitted herewith a revised (the sixth) edition of Commercial and Industrial Organizations of the United States.

The 1923 edition of this directory, issued as Miscellaneous Series No. 99, listed approximately 11,000 organizations, while the present compilation shows approximately 9,000, made up of 1,199 interstate, national, and international, 1,130 State, and 6,449 local organizations. Governmental, educational, professional, civic, agricultural, and religious organizations have been eliminated, the present directory containing only strictly commercial and industrial organizations.

The addresses shown are those of the headquarters of the various organizations, wherever possible to give them, and not the addresses of secretaries, which are subject to constant change.

In addition to the classification of national, international, and interstate organizations alphabetically and by industries, these organizations have also been listed according to their functions, as retailers, wholesalers, and manufacturers. Population figures have been eliminated in this edition.

It is believed that this is the most complete directory of commercial and industrial organizations published to date. There are undoubtedly some omissions, as a number of organizations to which questionnaires were addressed failed to reply to repeated requests for information.

The Post Office Department, through the postmasters of the country, was of material assistance in ascertaining the names of various organizations from which the bureau obtained the information presented.

Respectfully,

HON. HERBERT HOOVER,  
Secretary of Commerce.

IV

JULIUS KLEIN, *Director.*
